

JOB DESCRIPTION

Company:	Geo-Foundations Contractors Inc.
Job Title(s):	Driller/Drilling Technician – Construction
Job Length:	Permanent Full-time
Job Location:	Acton, On based - Various construction sites as required
Start date:	May 2009
Preferred Experience:	Minimum 5 years or SSF Resources Drilling and Blasting Technician – graduate

Geo-Foundations Contractors Inc. is a specialty geotechnical contracting firm with its head office in Acton, Ontario. The company is focused on the implementation and further development of advanced technologies in geotechnical construction, specializing in foundation support, ground improvement, and ground treatment.

Working throughout Canada, Geo-Foundations offers a wide range of ground related construction services to the civil, industrial, commercial, and institutional sectors of the construction industry, with cost effective solutions to a wide range of geotechnical problems.

Geo-Foundations is constantly looking to provide the industry with alternatives to conventional technologies through the use of specialized equipment and design.

We are currently seeking to hire Drillers/Drilling Technicians to join our field team.

Candidates will ideally have theoretical and hands-on experience in the following:

1. drill rig components and operations,
2. servicing, maintenance and repair,
3. drilling practices, applications and systems,
4. soil sustainability and properties,
5. standard procedures and safe work practices.

Driller training specific to our technologies is provided. The diversity of technology and equipment will provide many opportunities to contribute to be part of our accomplishments thus allowing you to develop your skill sets while providing you with a productive and rewarding work environment.

Wages are commensurate with experience. Successful candidates must have valid driver's license and be willing to travel.

Please forward your resume, cover letter and transcript to; hr@geo-foundations.com
