Library of Parliament

Date: 2002 - 2005

Technology: Masonry Rehabilitation Grouting

Canada's Library of Parliament, located on Parliament Hill in Ottawa, has been designated by Public Works as the country's foremost heritage structure. Commencing in 2002, the Library underwent a comprehensive rehabilitation, restoration, and upgrade, which included Geo-Foundations performing drilling, flushing, and grouting of over 4400 square metres of stone masonry walls, consuming more than 200 metric tonnes of hydraulic lime grout.
